## **OFFICIAL**

**MEDICAL CLINICS THANKSGIVING SCHEDULE:** The Launch Area Clinic (MFF) and the Occupational Health Facility (M6-495) will be closed Thursday and Friday, November 28 and 29 2002. The KSC Visitor Center Clinic will be open from 9:00 a.m. – 7:00 p.m. on those days. **For medical emergencies dial 911 at any time.** (TA-C2)

**LOST & FOUND ITEMS—KSC FITNESS CENTERS:** We just might have what you've been looking for... The KSC Fitness Centers have clothes, hats, sunglasses, coffee mugs, gloves, locks, watches, pagers, and more. We will be delivering all lost and found items to KSC's central Lost and Found offices on Friday, November 15. If you believe you have lost an item in the O&C or OSB Fitness Center, come by, describe the item and reclaim your property. Call 867-7829 for more information. **mailto:gensmsj@kscems.ksc.nasa.gov.** (TA-C2)

**DO A FAVOR FOR YOURSELF AND THE ENVIRONMENT—RECYCLE ELECTRONICS:** There will be an electronics collection event Friday and Saturday, November 8 and 9. The event is sponsored by the Florida Department of Environmental Protection (FDEP) and will be held at the Best Buy Store in the Waterford Lakes Shopping Mall in Orlando. Bring your old computers, monitors, TVs, VCRs and more... Items they are not accepting: Microwaves, smoke detectors or large household appliances like refrigerators or air conditioners. FDEP will be on site both Friday and Saturday and Orange County will be helping out also. Florida is an active Stakeholder in the National Electronics Product Stewardship Initiative. The Electronic Industries Alliance (EIA) is the active trade group in the National initiative. Ten EIA members kicked in \$100,000 to do some pilot electronics collection programs. Florida got \$37,500. Best Buy has held electronics collections before, but they charged a fee for TVs and computer monitors. FDEP is using this EIA money to pay for the costs of recycling the collected electronics so there is NO fee to the citizen who brings something in. The State electronics recycling contractor, Superior Special Services, will be on site doing the collecting, packaging, loading and transporting to the final recycler in Tampa. Point of contact: Environmental Awareness Program, TA-C3, 867-8413, 867-8452. (TA-C3)

**AMERICA RECYCLES DAY:** Coming soon! How would you like for your old tires to help your garden grow, or your soda bottles to keep you cozy and warm? When you recycle these items they can be made into soaker hoses, carpeting and fleece jackets. On Friday, November 15, our nation will celebrate America Recycles Day (ARD). ARD is an annual nation-wide awareness event that encourages individuals to recycle and to buy recycled-content products. The theme of this year's celebration is **"Make Every Day America Recycles Day."** At the Kennedy Space Center, we want to sponsor a recycling roundup of items such as overhead transparencies and compact discs (CD's). These items were chosen because they do not require any additional containers, manpower, contract modifications or logistical planning. For the next few weeks leading up to November 15, please forward all of your overhead transparencies and compact discs to Mail Code: **TA-C3/Hines**. Please note that any CD's containing classified/sensitive information or re-usable software must be handled in accordance with standard procedures for classified documents. We are only collecting outdated and otherwise known as landfill-bound CD's. CD's that are outdated or no longer needed may be rendered unreadable by deep scratching the data side (the shiny side without the label) with a nail, screwdriver, or a similar sharp tool. Please ensure that you score your CD's before forwarding them to us. After November 15, these recyclable commodities will be shipped to the nearest recycling/reuse facility in our area. This activity will not only promote the objective of ARD, but it will also provide measurements of how many pounds of CD's and transparencies are diverted from the landfill. We need your participation to achieve the objective of **America Recycles Day 2002**. Support not only this recycling initiative, but also make your commitment to recycling by obtaining an America Recycles Day pledge card at **www.americarecyclesday.org**. Nationally, 6 individuals will be selected from all submitted pledge cards and the winners will receive a recycled-content prize package valued at more than \$2,000. Point of contact: Alice Smith, TA-C3, 867-8454. (TA-C3)

**2002 AMERICA RECYCLES DAY LOGO CONTEST:** The Recycling and Affirmative Procurement (RAP) Principal Center is sponsoring a NASA Recycles logo contest to celebrate America Recycles Day, November 15. NASA recycled over 17,000,000 lbs. of materials in FY 2001! Let's continue to work towards NASA's goal of 35% reduction in Solid Waste by 2010. The contest is open to all KSC employees. Entries are due November 13. The winner will be announced on November 15. The logo contest winner will receive a free Swiss made ReWATCH. This watch is made out of recycled aluminum. The logo will be used to promote NASA's recycling program throughout the year. Send entries electronically to **Shannah.Trout-1@ksc.nasa.gov**. Point of contact: Shannah Trout, 867-8443. (TA-C3)

**NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS:** Many people complain that they overeat in response to work-place or personal stress. If this sounds like you, read the following tips for managing stress-related overeating to help you check this unhealthy habit.

- Practice waiting. Postpone your instant gratification when hunger hits. Tell yourself you'll wait 15, or better 30, minutes to eat. Chances are good if your cravings are only stress-related, they'll disappear when you allow yourself to become distracted.
- Keep a running list of what you eat each day. Knowing you have to write down every snack or nibble can be a good way to remind yourself to think before eating.
- Make a personal rule to eat only while seated and when not otherwise occupied by a task. You'll focus more on eating and won't absentmindedly consume more than you wish.
- Keep yourself nourished. Eat regular, healthy snacks to maintain your energy level. Skipping meals while under stress only prompts you to eat more, and unhealthily, when you do get around to eating.
- Know yourself - and your weakest times and places. Remove yourself physically from the group in the coffee room at work, take another route to avoid the taco stand, or plan activities to distract you in "hungry" times.
- Physically remove tempting food items from your home or office. Never go shopping while hungry; bring home only what you feel good about eating.
- If you can't stop obsessing about food, then indulge yourself. Plan ahead for a special dinner or snack at some point in the future. When cravings hit, think about the treat you have coming.

These tips should help you control overeating in response to stress, whether or not your weight is in the normal range. If you are seriously interested in weight reduction, check with your doctor to find a healthy diet and exercise plan for your lifestyle. Paper for typing, faxing, and laser printers should be requisitioned from your Logistics Service Center (NASA/SGS only), under Stock No. 7530-01-335-2623. Contact Ann Gary, 867-9103 if you have any questions. (TA-B3)

**MAIL SERVICES:** Requests for mail services should be submitted through your organizational admin office or contractor mail coordinator. The new technology items so transferred are often referred to as "Space Spinoffs." KSC and contractor employees are urged to participate in this important program by reporting their items of new technology. Such items may include any new or improved technique, tool, computer program, management systems or scientific data. KSC or contractor employees whose items qualify for publication in NASA Tech Briefs will receive a \$350 award. New Technology items should be reported on NASA Form 1679 to the KSC Technology Transfer Officer, Dave Makufka, YA-C1. To obtain an electronic copy of NASA Form 1679 or for additional information on KSC's Technology Transfer Program, visit the YA-C1 website at <http://technology.ksc.nasa.gov/DOC/ntr.html> or call 867-6227.
